

Three Main Pillars of the President's National Pandemic Strategy

- ◆ **Preparedness and communication**
 - **Establishment of infrastructure and capacity**
- ◆ **Surveillance and detection**
 - **Cooperation with international partners to identify and contain a potential pandemic virus and delay its introduction into the U.S.**
- ◆ **Response and containment**
 - **Full participation of all levels of government and all segments of society will be necessary**
 - **Federal Government will provide clear criteria and tools to assist State, local, and private sector entities with planning activities and response actions**
 - **Federal agencies must be prepared to supplement and support State and local efforts where necessary and feasible**
